

English essay

How did the Corona virus affect your life style since the beginning?

Now days, we are in trouble with Coronavirus. This virus has changed people's lifestyle, exclusively. We have to wear a mask and use alcohol-based sanitizers to prevent COVID-19 transmission since the pandemic began. We used to be familiar with friends and have a warm treatment like hugging or kissing or something like these. We limited to go out alternatively because it is risky and it is recommended to stay at home as you can. Our life is bothering during the pandemic because the quality of our relationships is terrible.

COVID-19 has restricted the whole people. I individually hate this kind of life however I tried to adapt myself like other people and have my best doings.
